

CASTILLO DE CUZCURRITA

RIOJA ALTA · ESPAÑA

BLANCA DEL CASTILLO DE CUZCURRITA

2021

A very exclusive white wine made in limited quantities from old viura vines from the “Vallimedio” vineyard, located at an altitude of 650 metres in the most north-western district of Cuzcurrita bordering with the province of Burgos

Years produced: From 2017

Variety: Viura

Soil: The vineyard is located on a hill formed by a bank of the typical, highly weathered sandstone rock of the area: Many of the vine stocks grow from the cracks in the rock, with the soil in the fissures and which surrounds the roots being of a clay-loam nature

Viticulture: Bush vines, all over 50 years' old, cultivated organically

Harvest: October 5th in 20-kilo crates and using a sorting table for selection

Vinification: Static, cold débourage and fermentation controlled at 18-20°C. It ferments with the skins and once alcoholic fermentation is complete the wine is racked off into used French-oak barrels where it remains for several months in contact with its lees until bottling

Ageing: 6 months in used, 225 and 500 litre, fine-grained, French-oak casks with a medium toast followed by 24 months in the bottle

Bottling: Early May 2022 with no prior clarification or stabilisation process

TASTING NOTES

Greenish-yellow with an intense, complex nose and notes of white fruit and spicy and balsamic nuances. Fresh, balanced, complex and elegant, it has a pleasant, long finish with good persistence of the aromas. A wine which will still continue to improve in the bottle with more years.

2021 production:

2,500 0.75-LITRE BOTTLES

2021 VINTAGE: A very complete and balanced vintage, both in quality and quantity. The climatic conditions that year were very good during all the key months for obtaining high-quality grapes.
